

METERING CUBICLE

- Outdoor / Indoor Metring Cubicles are used for reliable and accurate metering of energy .

11 kV Metering Cubicle (Kiosk)
Typical Installation of CTs & PTs in the
Metering Cubicle

11 kV Metering Cubicle (Kiosk)
Accuracy Class (0.2 / 0.5)
(0.2S / 0.5S on special request)

11 kV Outdoor Metering Cubicle (Kiosk)
Accuracy Class (0.2 / 0.5)
(0.2S / 0.5S on special request)

**33 kV Outdoor Metering Cubicle
(Kiosk) Accuracy Class (0.2 / 0.5)**
(0.2S / 0.5S on special request)

22 kV Outdoor Metering Cubicle (Kiosk)
Accuracy Class (0.2 / 0.5)
(0.2S / 0.5S on special request)

Technical Specifications and Parameter

| | |
|----------------|----------------------------------------------------------|
| System Voltage | Up to 33 kV |
| Accuracy Class | Metering Classes 0.2, 0.2S, 0.5, 0.5S |
| Standard | IS, IEC and Other Standard as per Customer's requirement |
| Frequency | 50Hz / 60Hz |
